

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 2+ years of experience building scalable web applications across the insurance domain and internal enterprise platforms. A Bachelor of Commerce graduate who transitioned into tech by self-learning software development, now focused on backend development, feature implementation, CR handling, and production support using Node.js, Express.js, NestJS, React.js, and MongoDB. Experienced in building and enhancing RESTful services, optimizing system performance, and automating workflows with JBPM and Power Automate to deliver measurable efficiency gains. Collaborates closely with cross-functional teams to ship reliable solutions in fast-paced environments, with a passion for solving real-world problems, writing clean, maintainable code, and continuously learning new tools and technologies.

WORK EXPERIENCE

Software Engineer

Neutrinos

- Worked on insurance platforms including **Al Rajhi Takaful, Sunlife Philippines, Sunlife Hong Kong, PDL Indo, and Manulife Philippines.**
- Automated end-to-end insurance workflows using **JBPM**, accelerating claims processing by **10x** — from weeks down to a few days.
- Streamlined internal communication and issue ticketing with **Power Automate** by automating and integrating **Microsoft Teams and Jira**, and connecting community channels into these mediums — boosting **team productivity by 70%.**
- Developed enterprise modules, implemented new features, resolved production issues, and **improved application performance.**

Dec 2024 – Dec 2025

Full Stack Developer

Brototype

- Built full-stack web applications using **MERN** technologies.
- Developed **Ecommerce and HRMS** platforms with responsive user interfaces and backend integrations.

Sep 2023 – Nov 2024

PROJECTS

Aptus HR — HR Management System

React, NestJS, MongoDB

- Developed a **multi-tenant** HR platform with **RBAC**, attendance tracking, reporting, and subscription management.
- Implemented strict **per-tenant data isolation** to keep each organization's records fully secure and segregated.
- Built using **React.js, NestJS, MongoDB, Redux Toolkit, and Stripe** integration.

PulseTrack — Social Media Analytics Platform

NestJS, Supabase

- Designed and developed a full-stack analytics platform using **NestJS, TypeScript, Supabase, and PostgreSQL.**
- Implemented **real-time updates**, analytics dashboards, engagement tracking, and reporting features.

Lecockpit — CRM Platform

React, Node.js, Express

- Developed a CRM solution for travel agencies to manage enquiries, bookings, and customer workflows using **React.js, Node.js, Express, and MongoDB.**
- Made client management and tracking **75% simpler and faster** through a clean, intuitive UI and streamlined workflows.

SKILLS

- JavaScript, TypeScript, Python, SQL
 - React.js, Next.js, Angular
 - Node.js, Express.js, NestJS
 - MongoDB, PostgreSQL, MySQL, Supabase
- Redux Toolkit, RxJS, Tailwind CSS, Material UI
 - REST APIs, JWT Auth, Postman
 - Swagger/OpenAPI, Clean Architecture, MVC
 - AWS (S3, EC2), Docker, Kubernetes, CI/CD

EDUCATION

Bachelor of Commerce (Finance)

University of Calicut

- Cleared with a focus on finance & accounting

2019 – 2022
